

2017-18

**Best practice - I**

**Title of the practice:**      **Cleaning of the college campus**

This college is situated in an area of 12 Acres. It has 250 trees and other foliage. Thus, there is always a lot of plant wastage in the forms of leaves and wood.

Imbued by the "Swachh Bharat Abhiyan" started on 2<sup>nd</sup> October 2014 on the occasion of birthday celebration of the father of nation "Mahatma Gandhi" the college has taken up this task with a great diligence.

**The process:**

The process begins generally in the month of July/ August with the start of academic year. The strength of the team is 100 students composed of 50 NSS students and 50 freshers on rotational bases. The students are asked to take out weeds and other waste material. This biodegradable material is dumped in to a pit of 100 cubic feet. This is left to decompose in to organic manure. This process is done once a week on Saturday from 10am to 11 am.

The entire gamut of this exercise is lead by N.S.S co-ordinator and other faculty on rotation.

This exercise has made a distinct impact on the cleanliness of the camp, as also on the ability of students to work in team spirit.

**Problems encountered:**

No major problems were encountered. The small requirements of brooms/ spades and other pruning materials were provided by the college.

2017-18

Best practice - II

**Title of the Practice:** Tree plantation

**Objectives of the Practice:**

Global warming is a hotly debated topic and needs no emphasis. This college is situated in a 12 acres campus and provides enough space for tree plantation which can make the campus green and pollution free.

**The Context:**

The management of the college wanted that some action be taken to reduce effect of hot weather at the campus and had identified space for additional tree plantation.

**The Practice:**

The team sought the help of department of forestry and they felt that at present planting need would be of great ease and help. Thus 20 number of neem trees were planted during the month of June/July 2017

**Evidence of Success:**

20 neem plants have been planted by the students in college campus. Now we are hoping that after this rainy season, these planted trees will provide us feelings of happiness. Forest department suggested that we should take slightly grown-up saplings having a height of about a meter. This suggestion was accepted. The digging of soil and its preparation was undertaken by the students.

**Problems Encountered and Resources Required:**

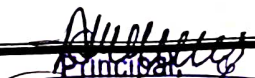

The following problems were encountered

a) Shortage of piped water for each tree.

b) Guards/ protection through barbed wire to the saplings as fencing.

These issues have been discussed with the Principal, who said he will take up the matter with the management
